Staff Code of Conduct

Super Lawyer / Super Legal Admin

Version 1.5 | Approved for use on 12 November 2026

This form records the company rules and role duties I acknowledge. It does not appoint me, approve an account or grant new access.

Rules I agree to follow

1. Use only my approved account, function and assigned territory. A button or senior title does not grant extra authority.
2. Open customer records only for assigned work. Keep documents, contact details, identity information and case records private. Do not export them for personal use.
3. Never ask a customer for a password, OTP, authenticator code, card PIN or CVV in a conversation. Use approved verification and recovery tools.
4. Use official money and receipt processes. Never invent a payment, mark unpaid money as received, change a beneficiary for private gain or take unofficial fees.
5. Make truthful records of visits, consent, approvals, receipts, language skills and availability. Never invent evidence or service completion.
6. Declare a personal interest and step aside from conflicted decisions. Do not approve my own case, evidence, payment or collection where independent review is required.
7. Keep property business on the platform. Do not give customers protected property contacts to help them bypass it. Use private consented support forms when genuinely necessary.
8. Keep normal support complaints private. Share only the customer-approved summary through a permitted formal dispute handover; do not copy private notes or contacts to the other party.
9. Treat users and colleagues fairly. Do not threaten, harass, discriminate, retaliate, demand gifts or promise employment, verification or a case result I cannot authorise.
10. Preserve logs and evidence. Report suspected fraud, safety risks, data exposure and account compromise promptly through the assigned escalation route.
11. Use protected devices and required MFA. Do not share staff sessions. Hand over unfinished work and return information and access when reassigned or leaving.
12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

Super Lawyer / Super Legal Admin

Role duties and acknowledgement

System role: super_lawyer

Scope: Super / national legal oversight

My role duties

Oversee complex/cross-State legal support and dispute quality.

Set case-note/evidence-verification standards.

Review escalated disputes for consistency and legal-risk implications.

Check client/property authorisation, territory, identity and conflicts before casework. Do not verify your own evidence or claim that an internal outcome proves a court matter is finished. Protect public-case anonymity.

I must not: Accessing unauthorized properties/cases. Fabricating legal notes or evidence status.

Reporting and fairness

Reporting line: Super Admin; professional legal accountability remains subject to applicable professional rules. The company must confirm my actual supervisor and scope. Alleged breaches follow the adopted investigation, response and appeal process. This form does not create an automatic fine or penalty.

Acknowledgement

I have received the applicable company rules and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.
